

Years Of Possible: Conquer Hazards And Beyond

2022 CSR REPORT

DEREKDUCK INDUSTRIES CORP.

INDEX

Words from Managing Director

The 30 Years Journey

SDGs: The Future We Want

CSR Moments

Goals of Year 2023

DEREKDUCK provides body solutions that can withstand most hazardous environments, allowing people to safely return home and embark on new adventures.

We believe this commitment required clear objectives, consistent efforts and measurable goals. In the coming years, we intend to:

+

•

Preparing for Change

- Guide organizations in every industry that needed PPE knowledge to thrive in changing conditions.

Globally Connecting People

- Remain optimistic and committed to making positive contributions that will benefit the world today and future generations.

Increasing Resources

- Provide workforce tools such as the ULTITEC App, Data Center, Blog, Product Comparison, Chemical Permeation Data, and more to come in the future.

THE 30 YEARS JOURNEY

The Dream Has Come True

The 30 Years Journey

Starting from the year 1992 until today, DEREKDUCK has covered a long and evolutionary journey.

With 30 years of industry experience, we intend to do **more than just manufacture coveralls but provide systematic safety knowledge and education** for all.

The dream of making DEREKDUCK known for its High Quality Products, Professional Service, and Technical Support has come true.

SDGs: The Future We Want

What We Did and How They Affected the Society

Actions That Comply with the SDGs - Education

Educate on appropriate coverall selection to prevent accidents.

Encourage proper coverall donning & doffing process.

Advise on proper storage & disposal of coveralls.

Promote occupational safety knowledge through Industry-Government-University cooperation.

Help develop coverall regulations to bring more people home safely.

Actions That Comply with the SDGs - Social

Donate to local governments as well as international frontliners.

Organize free webinars for all users and the general public.

Create social media platforms and share overall knowledge.

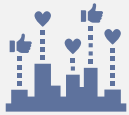

Spread the role of occupational safety influencer through international safety magazines.

Create free public-use apps, blog, product comparisons, etc.

Actions That Comply with the SDGs - Governance

Started company to provide PPE solution across the globe.

Increase working opportunities for the general public.

Hired female employees in every departments.

Provide an annual health check for all employees.

Provide educational subsidies to each employee.

Actions That Comply with the SDGs - Products & Services

Conduct quality control inspections to ensure product stability.

Equip all products with international certifications.

Pre-make enough coveralls in own warehouse for emergency needs.
This can help customers reduce storage pressure and cash flow issue.

Assign key account managers to responsible for customer relationships.

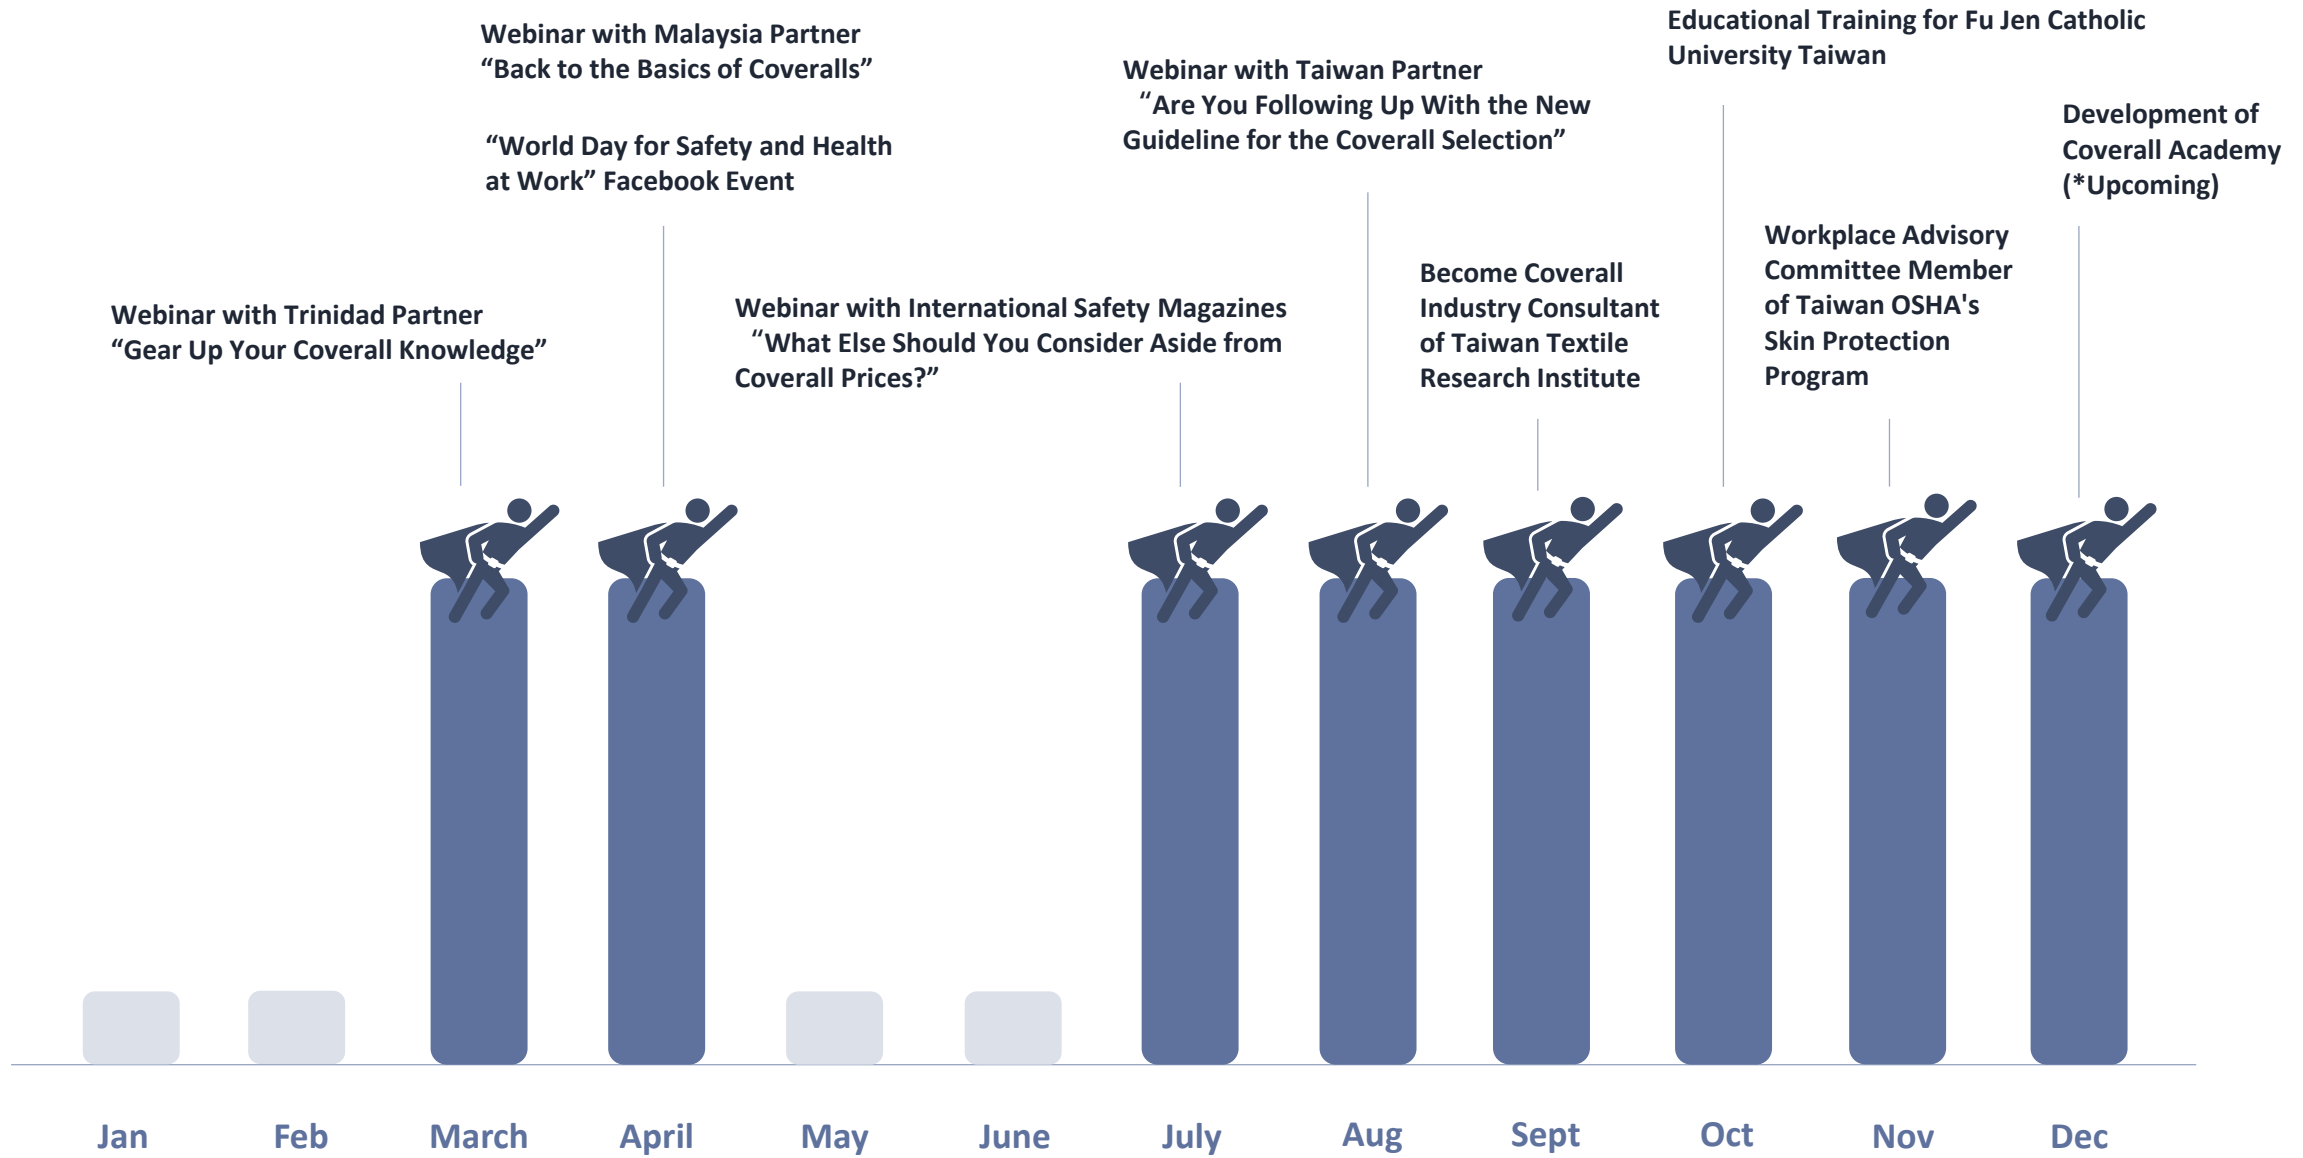

Provide marketing materials and regular trainings to global partners.
